Description

A neat, small 1920's mantel clock in a Mahogany case inlaid with decorative swags and standing on brass feet. Swiss 8 day movement in working order. Please note that clocks are cleaned and oiled; then they are run for a couple of weeks to check. Further regulating or setting 'to beat' may be necessary once in your home. However we do not dismantle or service further than this, to keep costs reasonable. We cannot therefore guarantee the movement or its time keeping further. Cases are always cleaned and polished where necessary. We will endeavour to help you set and regulate after purchase, and of course will take returns as per our usual terms and conditions.
