Sold

Item Reference: SA514415

Date of manufacture: Victorian

Dimensions

Height = 96 cm (37.8")

Width = 26 cm (10.2")

Depth = 6 cm (2.4")

Description

A very nice mercury barometer that has just been fully overhauled and re-calibrated. Please note that this barometer looks far nicer in real life than our pictures depict. We are very good at clocks and barometers and very bad at photography. A lovely mahogany "onion-top" case that is beautifully polished. Complete with hygrometer, thermometer, butlers mirror, barometer, ivory setting knob, and level indicator. The silvering of all dials is in excellent condition and contrasts nicely with the black engraved markings. A 7" thermometer and a 9" barometer with brass bezel. Still the best local weather forecaster you can get. All cards accepted.
