## Description

Such an exciting ring. The natural and unheated emerald cut ruby displays a deep purplish red and is set laterally in a rubover platinum setting. The ruby is cut shallow to allow plenty of light to pass through the stone, as well as giving the stone a generous "spread." Forty-two eight-cut diamonds are set within the finely engraved gallery and shoulders, leading to a slim and fluted platinum shank. Accompanied by a Ruby Report from the Gem & Pearl Laboratory (London) confirming the ruby is natural and unheated. Please contact us if you wish to see a copy of the report. Cut – Emerald cut ruby and eight cut diamonds. Colour – Diamonds are G. Clarity – Visible inclusions in the ruby – to be expected of a ruby this size – but still transparent enough to allow light to travel through the stone. Diamonds are VS. Carat – The ruby is approximately 1.75 carat with an estimated 0.42 carat of diamonds. Circa – 1940. Size – Q 1/2 (UK) or 8.25 (US). Complimentary sizing is available, can go up or down. Measurements – The ruby is approximately 10.2mm by 7.7mm and sits 5.6mm from the finger. Metal – Platinum.
