

SA515033

1930s gold plated pocket
watch and albert

Price

Sold

Item Reference: SA515033

Date of manufacture: 1930

Description

A 1930s gold plated pocket watch and albert. The watch has a good quality Swiss stem-winding movement, with patterned plates and a snail cam regulator, which is working nicely. The movement is protected by an inner hinged cover which has some surface scratches from where it has been opened in the past (although they are mainly on the inside). The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition. The watch glass has minor marking but is very acceptable. The white enamel dial has some hairlines at number 10 although faint. The watch comes with a single albert which measures 33cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free worldwide shipping
