

SA515125

Antique silver Vertex pocket watch and albert

Price

Sold**Item Reference: SA515125****Date of manufacture: 1910**

Description

An antique silver Vertex pocket watch and albert. The watch has a signed 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover (there is some marking to the edge from where it has been opened in the past). The watch itself measures 52mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the case backs for Birmingham 1919 with a case maker's mark for Aaron Dennison, a prolific watch case maker who supplied various watch manufacturers. The case is in good condition, with nice crisp engine turned detail to the hinged case back. The glass has minor marking but is very acceptable. The signed dial is in beautiful condition. The watch comes with a silver double albert with each chain measuring 22cm long including the T-bar and the clasp. There is also a 1930s silver fob with a partial rose gold wash to the front. The chain and fob weigh 42.4g. The watch and chain will be sent in a new presentation box. Free worldwide shipping
