Description

A 1920s Record full hunter pocket watch. The watch has a Swiss stem-winding movement which is working nicely. The movement is stamped Record, 7 jewels, Swiss made. The movement is protected by an inner hinged cover. The watch measures 50.2mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model by the English watch case maker Aaron Dennison. The case has light surface marks from use but overall it is in nice condition for a 1920s piece. The front cover has monogrammed initials. The winding crown pushes down to open the front cover. It reveals a white enamel dial with a glass lens which is in nice condition. The dial is signed Record and has a faint hairline crack between 12 & 6 o'clock although hardly noticeable and an old repair to the outer edge between 8 & 9 o'clock. The watch has its original blued steel hands. The watch comes in a new presentation box. Price includes worldwide postage.
