Description

Probably one of my most favourite items I've managed to source in the last 6 months. Fabulously glamorous, and as if we needed another excuse to eat cake then this is certainly it! A deceptively heavy and what looks like silver plate is this wonderful 4 tiered metal stand, which allows the two inner circles to pull out. Each tier has an etched glass insert with a wonderful black enamel geometric decoration. I haven't come across one of these before so I think it's probably quite rare. I can't find any damage, the silver plate I would give 8/10, there doesn't appear to be any tarnishing or noticeable loss. FREE UK DELIVERY
