

SA516926

1910s gold filled pocket watch

Price

Sold**Item Reference: SA516926****Date of manufacture: 1910**

Description

A 1910s gold filled pocket watch. The watch has a good quality 15-jewel movement, three adjustments, which is working nicely. The movement is protected by an inner hinged cover which has a few scratches from where it has been opened in the past. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Keystone Watch Case Company. The case is in good condition and the engine turned detail to the back is still nice and crisp. There is also a small vacant cartouche to the back. The watch glass has a few minor marks, nothing too serious at all. The white enamel dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
