Description

An antique gold filled Waltham pocket watch, 1908. The watch is open faced and it has a stem-winding movement which is working nicely. The movement is signed American Waltham, U.S.A. 17 jewels and the serial number of 17286250 which dates it back to 1908. The watch itself measures 51 mm diameter excluding the winding stem and the loop. The gold filled case was made by the American Watch Case Company. The case is in nice condition for a piece that is 100 years old with just minor marking. The acrylic lens is in nice condition with only the odd minor mark. The signed white enamel dial is in nice condition. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Price includes worldwide postage.
