Description

A gents 1950s Delbana wrist watch. The watch has a good quality 30 jewel automatic movement which is working nicely. The movement is an ETA 2451 which was bought in, and signed by, Delbana. Delbana Watch Company was founded in 1948, and was based in Grenchen, Switzerland. This particular calibre of movement was also used as the base calibre for the Tudor 2483. The watch measures 32.5mm diameter excluding the winding crown and the lugs. The case is gold plated with a stainless steel screw-on case back which is signed with the Delbana name and logo. The gold plate is in good condition, just a little marking on the back of the lugs but not too detrimental at all. The lens is in good condition. The signed dial is in lovely condition with original hands and centre seconds with red pointer tip. A new leather strap has been fitted. The watch will be sent in a new presentation box.
