Sold

Item Reference: SA518773

Date of manufacture: 1920

Description

A 1920s Swiss pocket watch. The watch has a nicely jewelled stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50.5mm diameter excluding the winding stem and the loop. The case is .800 silver with a rose gold silver wash around the bezel and the edge of the hinged case back, known as a galonne case. There is also engine turned detail to the case back, along with a vacant cartouche to the centre. The gold wash has some wear from use but overall it is in nice condition. The watch glass is in good condition. The white enamel dial is in nice condition. The watch has later hands although vintage and similar to the original style. The watch will be sent in a new presentation box. Price includes worldwide postage.
