Description

A fine quality Bristol regulator longcase clock. Choice flame mahogany case veneers with crossbanded base and trunk door. An arched pediment with well carved fretwork panel below the dial. A circular painted dial with 'regulator' dial layout of seconds, hour dial and single minute hand. A cylindrical compensating pendulum and brass weight. A well made mechanism of 8-day duration, dead-beat escapement and maintaining power. J H Allis of Bristol is documented in A J Moores' Clockmakers of Bristol' book as born in 1817 and worked until 1876. He made precision clocks and exhibited at the Great Exhibition in 1851. In 1851 he is noted as a chronometer maker. Height 6ft 3 " / 192cms. From Kembery Antique Clocks Ltd you can expect a genuine antique clock that has been serviced with 1 years guarantee. We personally set up and deliver in the UK, overseas professional packing available. Please contact us for a quote.
