Description

A Cyma gold plated pocket watch and albert. The watch has a Cyma stem-winding movement, reference 999, which is working nicely. The case is gold plated and was made by the Dennison Watch Case Company, a prolific maker of cases for various watch manufacturers. The back of the watch has the recipient's initials. The later acrylic lens is in good condition. The dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single albert, 37cm long, with swivel. The watch and chain will be sent in a new presentation box. Free worldwide shipping
