## 1930s Omega pocket watch and chain

Price

**Sold****Item Reference: SA522040****Date of manufacture: 1930**

## Description

1930s Omega pocket watch and chain. The watch has a stem-winding movement, 19LBT1, which is working nicely. The movement is signed with the Omega name and the serial number 8,422,329 dates it back to the second half of the 1930s. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition with just the odd small "ding", nothing too serious at all. The inside of the case back has the Omega logo. The acrylic lens is in good condition. The signed white enamel dial has a hairline crack running up from the centre but it is faint. The watch comes with a single albert which measures 44cm long including the clasps. The watch and chain will be sent in a new presentation box. Free worldwide shipping
