Date of manufacture: 1930

Description

A vintage 1930s Swiss pocket watch. The watch has a 15 jewel stem-winding movement which is working well. The watch measures 46.5mm diameter excluding the winding crown and the loop. The rolled gold case has general light surface marks from use but overall is in nice condition. The acrylic lens is in nice condition. The textured silvered dial is in its original finish and in good condition with just a little marking. The hands are a particularly handsome feature, and there is a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Price includes worldwide postage.
