Item Reference: SA522299

Date of manufacture: 1920

Description

The watch has a Swiss hand-winding movement which is working nicely. The watch itself is a good size for a cushion case at 32mm wide excluding the winding crown and 32mm high excluding the fixed wire lugs. The case is silver and there are hallmarks inside the case back for Edinburgh (import mark), 1924. The case is in good condition for a 1920s piece, just some gentle unevenness to the back. The lens is in good condition. The black enamel dial is in good condition. Originally the numbers would have had painted detail but this has been removed over the years, and the infill has also been removed from the hour and minute hands. The watch has a later leather strap. The watch will be sent in a new presentation box. Free worldwide shipping
