Description

Circa 1910-1930, this solid brass Art Nouveau lamp is very much in the shape and style made famous by the WAS Benson company, although we cannot find a maker's mark. It is in excellent condition with no signs or damage or repairs, and is a good weight. The lamp measures 38cm in height - 44.5cm including the lamp holder, and at the widest point across the feet it is 26cm across, and it will take a standard shade fitting. It has been totally rewired to UK specifications using brown flex cable, and it has been polished but not lacquered. Postage and packing within the UK mainland is included in the price, and for remote parts of the UK or abroad, please contact us for a delivery quote.
