Description

1927 silver Revue pocket watch with chain. The watch has a good quality Swiss Revue stem-winding movement, calibre 30, which is working well. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the screw-on case back for Birmingham 1927 with a case maker's mark for Aaron Dennison of the Dennison Watch Case Company, a prolific maker of cases for various watch manufacturers. The case is in nice condition with only light surface marks from use. The glass lens has slight rubbing to the outer edge from use but overall it is in nice condition. The dial is in nice condition and it has its original blued steel hands. The watch comes with a single silver albert which measures 31cm long including the T-bar and the clasp. There is also a silver fob, awarded in 1925 for a championship, and there is a rose gold wash over the front. The watch and chain will be sent in a new presentation box. Free worldwide shipping
