Description

A vintage 1920s Cyma 10ct gold filled pocket watch. This particular watch has a Cyma stem-winding movement, which is working nicely. The high grade movement is stamped 17 jewels, 4 adjustments, Swiss made, and the Cyma calibre number 919. The movement is protected by an inner hinged cover. The watch measures 50.2mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the English based watch case maker Aaron Dennison. The case has light surface marking from use but overall it is in nice condition. The watch lens is in nice condition. The white enamel dial has a faint hairline crack between 7 & 8 o'clock and a small nibble to the sub seconds hole although hardly noticeable. The watch has its original blued steel hands. The watch will be sent in a new presentation box. Price includes worldwide postage.
