Buren half hunter pocket watch with double albert

Price

Sold**Item Reference: SA525810****Date of manufacture: 1920**

Description

A Buren half hunter pocket watch with albert. The watch has a signed 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has quite a lot of scratching. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company, a prolific manufacturer of cases supplying various watch makers. The case front has a small lens surrounded by enamel filled Roman numerals, a little of the enamel has come out over the years. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in good condition. The white enamel dial is in lovely condition with blued steel hands including the special half hunter hand, designed so that the time can be read (and the hands differentiated between) when the front cover is closed. The watch comes with a later double albert with each chain measuring 23cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free worldwide shipping
