Description

A 1930s full hunter pocket watch. The watch has a 15-jewel hand-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and loop. The case is gold plated and was made by the Dennison Watch Case Company. The case has general surface marking and a few small "dings" from use. The winding crown pushes in to release the front cover. Inside there is an acrylic lens. Originally it would have had a glass lens but these were often replaced with acrylic if they broke as it is much more durable. The white enamel dial is in lovely condition. The watch will be sent in a new presentation box. Free worldwide shipping
