Description

This popular rounded corner kneehole desk from the reign on Queen Victoria has been restored in the recent past. It has only minor usage marking so has clearly been looked after since being restored. The graining is good in the golden satin birch and it has neat little handles that are rather better turned than most with the extra detail in the face. Being a box top desk this comes to pieces for transport so it is an easy item to put up stairs or into a tightish space. A keenly priced example considering its good condition, Dont hesitate to give us a call if you would like to discuss 01565 874075
