Depth = 10 cm (3.9")

Description

This is a very fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. The watch is the calibre 353 automatic bumper movement and the serial number dates this accurately, this is classed as a Mark 1 being one of the earliest of its kind. An Omega "bumper" is a vintage Omega that has a "bumper" automatic movement rather than a full rotation rotor automatic. The oscillating weight makes a partial rotation before "bumping" into a cushioning spring. It is rare to find this model with the calendar facility. The dial has been fully restored so is in perfect condition. The case is oversize measuring 35.5mm diameter excluding the winding crown. It also has the Omega symbol on the original winding crown and a genuine Omega buckle. A new glass has been fitted and the case has been professionally polished so it is in superb condition. As you would expect the watch is fully marked on the dial, movement and case. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. The watch has been fully serviced and is guaranteed to be a genuine Omega in all respects...
