Description

A silver fusee pocket watch, 1900. The watch has a fusee movement which is working nicely. The movement is signed Chronometer Maker to the Admiralty, London EC, and is protected by an inner fitted cover which is signed John Forrest, London, EC and has the same serial number as the movement. The watch itself measures 54mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside the case backs for Chester 1900, with a maker's mark for the London case maker Henry Green. The case is in lovely condition and is beautifully detailed, even with rose gold wash detailing to the back. The later acrylic lens is in good condition. The dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and outer minute markers. The watch will be sent in an antique presentation box from The Goldsmiths & Silversmiths Company Ltd. Free worldwide shipping
