Description

A Swiss silver Spiral Breguet pocket watch, circa 1900. The watch has a key-winding movement which is working nicely. It has a "Spiral Breguet" which means that the hairspring has a Breguet-style overcoil. The movement is protected by an inner hinged cover. The watch measures 50.6mm excluding the stem and the loop. The galonne case is .800 silver and there are Swiss hallmarks inside the hinged case back, including the grouse mark. The case has a rose gold wash to the front & back bezels and a finely engraved back with foliate detail and a swan, it also has a vacant cartouche. The case is in nice condition with only some light wear to the gold wash on the bezels from use. The glass lens is in good condition. The white enamel dial is signed Breguet and has two faint hairline cracks between 11 & 12 o'clock although hardly noticeable but otherwise it is in nice condition. The watch has ornate hands add plenty of character. Price includes worldwide postage.
