## Description

A 1920s Selezi pocket watch from Dimier Frères & Cie with albert. The watch has a Revue stem-winding movement which would have been bought in by Dimier Frères & Cie, to be subsequently sold under the brand name Selezi, registered by Dimier Frères in 1912. The movement is working nicely and it is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and although unsigned, was probably made by the Dennison Watch Case Company, a prolific manufacturer of cases for various watch factories. The case is in good condition with just minor marking to the back. The watch glass has a small mark to the centre but not too noticeable to the naked eye. The white enamel dial is in good condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a double albert with each chain measuring 22cm long including the T-bars. The watch and chain will be sent in a new presentation box. Free worldwide shipping
