Description

A 1923 Elgin full hunter pocket watch and chain. The watch has a stem-winding movement, grade 292, which is working nicely. The movement is fully signed and the serial number dates it back to 1923. The movement is protected by an inner hinged cover... there is some scratching to this inner cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and is in good condition for its age, just a couple of shallow indentations and light surface marks. The winding crown pushes in to open the front cover. Inside the cover is a 1924 21st birthday inscription. There is an acrylic lens which is in good condition. The signed dial is in good condition. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain which measures 29cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free worldwide shipping
