Description

A ladies antique 14ct gold filled Waltham fob watch. The watch has a stem-winding movement, grade 100 which was in production from 1906 to 1917, and it is working nicely. The movement is signed and the serial number 19422595 dates it back to 1913. The movement is protected by an inner hinged cover. The watch itself measures 34.2mm diameter excluding the winding stem and the loop. The case is 14ct gold filled and was made by the Dennison Watch Case Company, a prolific producer of watch cases who had a close association with Waltham. The case is beautifully detailed and there is a vacant cartouche to the reverse. The glass lens is in very nice condition. The signed enamel dial is also in lovely condition. The watch has its original gold hands and blued steel sub second hand. The watch and chain will be sent in a new presentation box. Price includes worldwide postage.
