Price

**Sold****Item Reference: SA533593****Date of manufacture: 1890**

### Dimensions

Height = 110 cm (43.3")

Width = 37 cm (14.6")

Depth = 23 cm (9.1")

## Description

Not for the feint-hearted this one but a very magnificent and imposing bracket clock on bracket. An ebonised oak case with an arched silvered dial. The Winterhalder & Hoffmier 8 day movement strikes with a "ting-tang" stike on the quarters and the number of hours on a seperate gong. It has just been fully overhauled by our BHI registered staff. The arched, brass dial has a silvered chapter ring with engraved black Roman numerals, gilded spandrels and matted centre. Subsidiary rise & fall dial. The clock can be either mounted on it's wall bracket or alternatively table mounted separately in it's own right. The clock, including finial, measures 70cm tall, 37cm wide, 23cm deep. The bracket is 40cm tall, 37cm wide, 23cm deep. An awful lot of clock for a very modest price. All cards accepted.
