Description

A Super untouched Campaign Chest with a secretair drawer which has four small drawers fronted with birds eye maple and a bank of very small pigeon holes this bank can be drawn forward and hinged upwards to reveal two secret drawers faced in Oak with original purple lining. The chest itself is in two parts upper and lower all corners have the usual brass angle pieces the brass sunk handles are all in working condition. The condition is well used to the outside surfaces, internally very sound, it would be a shame to strip and re polish after all its purpose was to travel the world which I am sure it has done in its past history, so in fact it has real patina circa 1850
