Depth = 41 cm (16.1")

Description

A fabulous late 19th Century - early 20th century limestone console table, probably Italian. The table deconstructs into 5 sections and has an interlocking construction. The table is carved with architectural features, the front having three arcaded panels with shells, niches, columns and miniature portraits. The sides have a single arcaded panel with large columns either side. The Console table has some minor large and small chips and scratches commiserate with age, overall condition is excellent.
