Description

A gents 1950s Roamer wrist watch. The watch has a Swiss 17-jewel hand-winding movement which is working nicely. The watch measures 32mm diameter excluding the winding crown and the rather shapely lugs which give the watch real character. The case is plated and it is in lovely condition, usually cases with shaped lugs such as this are prone to rubbing on the tops so this is a very good example. The snap-on case back is stainless steel. The lens is in good condition. The signed dial is in its original finish and it is in good condition, just minor marking but nothing serious at all. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
