Description

A beautiful hand-made toy horse, dating from the late Victorian era. It is very original and has clearly been well loved over the years. Much of the original paint remains and it has its original wooden wheels and turned wooden handle with metal supports. It has a full horse hair tail and tufty remains of a horse hair mane. It is in excellent playworn condition and displays beautifully. The wheels roll well and the wood is free of worm and major damage. It is of course covered in knocks and scuffs and lots of signs of wear and use. The paint is faded and chipped and the saddle cover is worn and lifting around the edges torn but this is what makes the piece so wonderful. It really is the sweetest little horse and the best one I've ever owned. The best description comes from the photos so please look at them all carefully and if you have any questions please ask. Nationwide delivery £15 or collection from Ashburton, Devon.
