Sold

Item Reference: SA539322

Date of manufacture: 1910

Description

An antique .800 silver stem winding pocket watch. The watch has a nicely jewelled stem-winding pin set movement which is working well. The movement is protected by an inner hinged cover. The watch measures 52 mm diameter excluding the winding stem and the loop. The case is silver and has Continental .800 silver marks. The case has light surface marks from use but overall it is in nice condition. The inner dust cover has the details of previous owners engraved / scratch on it. The acrylic lens is in nice condition. The enamel dial has some faint hairline cracks although hardly noticeable to the naked eye. The hands are initially set by way of the pin set mechanism. The watch has its original blued steel hands. The watch will be sent in a new presentation box. Price includes worldwide postage.
