

SA539954

Antique boxed Omega pocket watch with albert

Price

Sold**Item Reference: SA539954****Date of manufacture: 1900**

Description

An antique Omega pocket watch with albert. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega logo on the regulator. The movement's serial number will be underneath the dial, which is usual for antique Omega watches. The movement is protected by an inner hinged cover. The watch measures 47mm diameter excluding the winding stem so very slightly smaller than a standard 50mm pocket watch. The case is gold plated and it is in very nice condition. The acrylic lens has light marks but not too detrimental at all. The white enamel dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There is a hairline crack at the top of the dial, running between 11 and 12. The watch comes with a single chain, 22.5cm long including the T-bar and the clasp. The watch and chain comes in a presentation box from a Bermondsey jeweller. Free worldwide shipping
