Antique silver Omega 'Labrador' pocket watch

Price

Sold**Item Reference: SA540491****Date of manufacture: 1890**

Description

Antique silver Labrador pocket watch by Louis Brandt & Frère. The watch has a stem-winding movement which is working nicely. The movement is signed 'Labrador Reg Mark'. Louis Brandt & Frère produced a range of movements with the Labrador being introduced in 1889, and the Omega in 1894 (which subsequently gave its name to the brand). The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss silver marks inside both of the case backs together with the early Omega logo. Engine turned detail to the back of the watch with a vacant cartouche to the centre. There is a little unevenness to the bezel and the case back. The watch glass is in good order, just light marking from an old lens label. The dial has a little mark underneath the number 9 but overall is in good condition with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
