Description

Circa 1910-1930, this round ceiling light has all of the original faceted glass drops and is in good condition. It measures 25.5cm from the hook at the top to the very bottom and approximately 20cm across at the widest part. It doesn't need wiring as it hangs directly from a ceiling hook with the cable coming through the fitting. The gilding on the decorative brass ring at the top is slightly dark in places but the decorative pattern can still be seen. A gentle polish will lift the colour but some of our clients prefer us to leave items as they are. Postage and packing within the UK mainland only is included in the price and for outside the main part of the UK or abroad, please contact us for a quote for delivery.
