Description

This is a lovely example of an Art Deco ring at its simplest, using the bold geometric shape of the square to create a beautiful example of a Sapphire and Diamond ring. A square sapphire stone as been placed within a square 18ct white gold setting; the 8mm by 8mm square white gold setting juxtaposes nicely against the 18ct yellow gold shank. The stone is a deep blue clean Sapphire, this is then surround by 12 diamonds totaling approximately 0.25ct in weight. The diamonds have been set in another square to create the traditional square within a square a typical Art Deco look. The ring is size L 1/2 and weighs 4.45g. The popularity of sapphires has soared in recent years, and so as the Art Deco style, this is a great example of the combination of both materials and style, and is a fine Deco ring.
