Description

Antique Waltham Royal pocket watch, 1908. The watch has a stem-winding movement, Royal grade, which is working nicely. The movement is signed with the Waltham name and the serial number 17,110,432 dates it back to 1908. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding crown and the lugs. The case is 10ct gold plated and is in good condition with just a couple of small "dings", nothing too serious at all. The watch glass is in good condition, again a couple of minor marks but not too noticeable to the naked eye. The dial is in very nice condition with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
