Date of manufacture: 1850

Dimensions

Height = 24 cm (9.4")

Width = 17 cm (6.7")

Depth = 13 cm (5.1")

Description

Fine quality Satin wood single chain fuse Library Clock of small proportions. The 4" square silvered dial with very well executed Fleur - De - Lys hands. The eight day movement with shouldered plates and cut out , London pendulum with stay fast and teared cock. I think this timepiece has particularly fine proportions and has a very good colour and figuring to the wood. Some Satin wood can be a little flat. Sitting on squashed bun feet which give it that nice squat look. Thick bevelled glass windows to top and sides. The key is original as is the locks, which both work. Library clocks are quite rare , especially in Satin wood. The movement has been fully overhauled and is guaranteed for a year. 9.5" tall, 6.75" wide, 5.25" deep.
