Depth = 44 cm (17.3")

Description

Late Georgian mahogany small chest of drawers This Late Georgian mahogany small chest of drawers would have been made circa 1830. Whilst it is quite late for this style, cabinetmakers would often make the same style in the country, much later than in the city as the fashions took longer to find their way into the provinces. The chest has 5 graduated drawers, fitted its original brass bale handles and stands on straight bracket feet. The top with a lovely ogee moulding around the leading edges. This chest will fit in most places of your home because of its lovely small size. 74cms wide (29ins) 44.5cms deep (17 1/2ins) 78.5cms high (31ins) UK mainland delivery £75+vat
