Lanco locomotive pocket watch from Langendorf

Price

Sold**Item Reference: SA543899****Date of manufacture: 1930**

Description

Lanco locomotive pocket watch from Langendorf. Langendorf was a well respected Swiss watch making company and they traded for exactly 100 years from 1873. They used several brand names including Lanco, Larex and Lancyl. This particular watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover upon which are various details of the movement. The watch measures 53mm diameter excluding the winding stem and the loop. The case is nickel and the hinged case back has an image of a locomotive. The case is in good condition with just the odd minor surface scratch. The watch glass is in good condition. The signed dial has hairline cracks, mainly on the outer ring. The watch will be sent in a new presentation box. Free worldwide shipping
