

SA544169

Antique Waltham pocket watch and double albert

Price

Sold**Item Reference: SA544169****Date of manufacture: 1890**

Description

The watch has a stem-winding movement which is working nicely. The movement is fully signed and the serial number 7,559,571 dates it back to 1896. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and is in good condition with just a little marking, nothing too serious at all. The case was made by the Dennison Watch Case Company, a prolific case manufacturer who had particularly close links with Waltham. The acrylic lens and the dial are both in good condition. The watch comes with a double albert with an unusual combination of rose gold plate links with yellow gold plate T-bar and clasps. The watch will be sent in a new presentation box.
