

SA544743

1926 Waltham pocket watch

Price

Sold**Item Reference: SA544743****Date of manufacture: 1920**

Description

A 1926 Waltham pocket watch. The watch has a stem-winding movement, grade 220, which is working nicely. The movement is fully signed and the serial number 25,907,147 dates it back to 1926. The watch measures 43.5mm diameter excluding the winding stem and the loop. The case is silveroid, an alloy often used in watches cases around this time and it was called various names such as silverore and silverine. The case is in good condition, just a very slight indentation to the back but nothing serious at all. The lens is in good condition. The signed dial is very stylish and in its original finish, there is a little marking but again, nothing too detrimental. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
