

SA545654

Antique silver Waltham Sterling pocket watch

Price

Sold**Item Reference: SA545654****Date of manufacture: 1900**

Description

An antique silver Waltham Sterling pocket watch. The watch has a key wound movement which is working nicely. The movement is fully signed and the serial number 14,754,294 dates it back to 1906. The movement is protected by a silver inner hinged cover. The watch measures 53mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside the case backs for Birmingham 1907 with a case maker's mark for Aaron Dennison of the Dennison Watch Case Company, a UK based case maker who had close ties with Waltham. The case is in good condition, as is the glass lens. The double sunk dial is in good condition, just a very faint short hairline next to the number 7, just about visible with a magnifying loupe. One of the hands is a later replacement. The watch will be sent in a new presentation box. Free worldwide shipping
