Description

An antique silver Dennison pocket watch, 1919. The watch has a 15-jewel Swiss Revue stem-winding movement which is working nicely. This movement would have been bought in by Dennison to be cased by themselves for onward retail. The movement is protected by an inner hinged cover. The watch itself measures 53mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the hinged case back for Birmingham 1919, with a case maker's mark for Aaron Dennison of the Dennison Watch Case Company. The case is in good condition. The acrylic lens is in good condition. The signed dial is in very nice condition and has blued steel hands, bold numbers and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
