Depth = 60 cm (23.6")

Description

Early 19th Century Copper Eagle, Weather Vane An outstanding English antique weathervane of an eagle with outstretched wings coming in to land. The 3 dimensional copper body is pressed and shows realistic feather markings and an open beak The bird is perched on a large Ball with smaller ball below and the N,S, E and W below, this is all in copper, the piece has an iron rod through from bottom to top and it has a fixing bracket at the base The Eagle is weather worn with a genuine verdigris patination, it has damage to its legs but all is sound and there is no need to repair them The wing Span of the Eagle is 21 inches and it is 18 inches High The overall height off the Weather Vane is 50 inches KW27 We Give Free Delivery to Mainland England & Wales, Delivery times vary according to your location usually 7 to 28 days We only operate an online store and regrettably viewing in person is not an option. In the unlikely event you wish to return an item you should contact us immediately. We will then arrange for you to return it to us at the buyer's expense, the item must be returned back with us in the same condition as it left and a full refund will be issued there may be...
