Description

Antique WW1 era silver Omega pocket watch, c1914. The watch has an Omega stem-winding movement which is working nicely. The nicely jewelled movement is signed Omega and has the serial number 4540943 which dates the movement to 1914. The movement is protected by an inner hinged cover. The watch itself measures 50.6mm diameter excluding the winding stem and the loop. The case is silver and there are London import marks for 1914 together with the Omega stamp. The case has light surface marking from use and some mild bruising to the back, it also has a couple of small dents to the outer edge at 3 o'clock but overall it is in nice condition for a WW1 piece. The acrylic lens is in nice condition. The white enamel military style dial is signed Omega with the logo above. The dial has an old repair to the outer edge at 11 o'clock and a couple of faint hairline cracks but overall it is in nice condition for a 1914 piece. The watch has its original blued steel cathedral hands. The watch will be sent in a new presentation box. Price includes worldwide postage.
