Description

Date made: 1930's Diamond content: 3.95ct Metal: Platinum Condition: Excellent commensurate to it's age Ring Size: UK J US/CAN 43/4 I am highly delighted to offer this truly stunning diamond engagement ring. At the focal point is a fabulous weighed 3.15ct european old cut diamond. This stunning L colour SI clarity diamond creates the most wonderful flash and is truly mesmerising in the light of day. You don't see many of this calibre. It glistens with every flick of the finger unmissable when worn. Either side of the diamond are two tapered baguette cut diamonds. These are bright white clear diamonds and total 0.80ct complimenting the center diamond perfectly. The shank is solid platinum and plain polished. It is size J which could be easily resized without detriment. An astonishing 1930's antique that has been very well maintained. Will come independently certified if requested. This will not disappoint and is sure to make someone very special extremely happy. We strive to source the very best antiques
