Sold

Item Reference: SA548409

Date of manufacture: 1910

Description

An antique silver pocket watch, c1910s. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover upon which is engraved various details of the movement. The watch itself measures 51.7mm diameter excluding the winding stem and the loop. The case is 800 silver, Continental grade, and it is in good condition, just a little unevenness but nothing too serious at all. The watch glass has little marks across it which show only at certain angles. The white enamel dial has charming ornate hour and minute hands (pin set), a subsidiary seconds dial and outer minute markers. The watch will be sent in a new presentation box. Price includes worldwide postage.
